New horizons in Ridge Augmentation Advanced Surgical Course

2nd - 3rd October 2023

BOC Marseille France

PATRICK **PALACCI**
BOC Marseille | DDS

ULF **NANNMARK**
Göteborg University, Sweden | DDS, PhD

SYNOPSIS

This unique experience will give the participants an update of hard and soft tissue management techniques and the way to achieve optimal functional and esthetic results.

During the two days, many live surgeries will be performed with the participation of:

PATRICK **PALACCI** | Marseille
ULF **NANNMARK** | Göteborg

An exceptional interactivity between these practitioners will allow the participants to get the excellence of scientific bases, surgical and prosthetic concepts.

This extremely dense course has been successful and updated over the years. It focuses on all different aspects of advanced implant dentistry.

TOPICS

Ridge augmentation

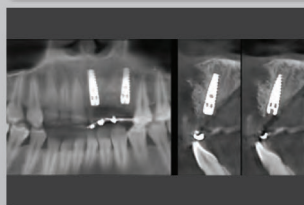

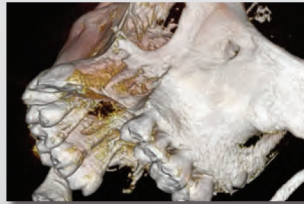

Immediate loading key for success

Esthetic in the anterior maxilla

The use of new generation of biomaterials

The use of a zirconia shell for ridge augmentation in extreme cases

All rights, title and interest to the pictures of each clinical case reproduced in this brochure belong to the relevant author as identified therein.
